GB **Repair Kit** RHODETATAMI

This repair kit has been conceived as a direct response to the needs as they arise in the real hands-on world: The desires expressed by many Rhode Tatami owners led to its creation. The contents of the kit put you in the enviable position of being fully prepared for basically all eventualities. Smaller, convenient quantities of the original material, cut to size and sorted to an extent to meet any anticipated demand.

The set includes: Bostik 1475 glue and Rhode Tatami non-slip material.

Repair Kit vinyl

Includes repairing instructions.

0,5 m² Kodokan material, green, 0,5 m² Kodokan material, red
500 g Universal glue (Bostik 1475)

GB **Cleaner** RHODETATAMI

RHODETATAMI-Cleaner not only cleans but also disinfects - thoroughly yet gently - without harming material. RHODETATAMI-Cleaner is a mild cleaning and disinfecting product - non-toxic, non-corrosive, odorless - but a true powerhouse when it comes to tackling dirt. Also works on rough, porous surfaces. Comes in 1 liter bottle. Dilute before use: 1:20 for cleaning; 1:10 for disinfecting.
